Set of Prompts for ChatGPT and Graphic Tools

1. Creating Social Campaigns with AI

ChatGPT:

- "Help me design an anti-discrimination campaign for young people aged 15–25."
- "Write a 4-week social media campaign plan promoting tolerance and equality."
- "Generate examples of slogans promoting respect and empathy within school communities."
- "Suggest ideas for short videos or reels about cyberbullying awareness."

Graphic Tools (e.g. Canva AI, Leonardo.ai, DALL·E):

- "Create a modern poster for an anti-discrimination campaign with a positive and youthful tone."
- "Generate a set of icons and symbols representing diversity, equality, and inclusion."
- "Design a social media banner promoting the message *'Respect is Strength'*."

2. Education and Personal Development through AI

ChatGPT:

- "Prepare a 90-minute workshop scenario on the ethical use of AI in youth work."
- "Create a 10-question quiz about data privacy and online safety."
- "Explain in simple language what a recommendation algorithm is and how it affects young people."
- "Propose a reflective activity about the balance between human creativity and automation."

Graphic Tools:

- "Design an infographic titled '5 Principles of Ethical AI Use in Education'."
- "Create a visual summary of a workshop on digital empathy."

- "Generate an illustration showing positive collaboration between humans and AI."

3. Communication and Organizational Promotion

ChatGPT:

- "Write an inspiring Instagram post promoting a youth workshop about AI."
- "Prepare a newsletter for NGOs about the latest trends in AI use in education."
- "Create a short press release about an international project promoting ethical AI."
- "Draft a script for a promotional video (voice-over + subtitles) about AI's impact on youth work."

Graphic Tools:

- "Design a set of carousel graphics for Instagram titled 'AI in Everyday Youth Work'."
- "Create a minimalist logo for the campaign *Youth & AI Empowerment*."
- "Generate a cover for the e-book *AI in Youth Work – Practical Toolkit* in a modern and inclusive style."

4. Ethical Reflection and Critical Thinking

ChatGPT:

- "Develop discussion questions on the responsibility of AI developers."
- "List arguments for and against using AI in education."
- "Write a case study about young people using AI for positive social change."
- "Propose a code of ethical guidelines for organizations using AI tools."

Graphic Tools:

- "Create an illustration symbolizing the balance between technology and human values."
- "Design an educational poster with a quote about digital responsibility and critical thinking."

5. Cooperation and International Exchange

ChatGPT:

- "Suggest follow-up activities after an international training on AI."
- "Draft a description of a joint partnership initiative promoting ethical AI use in NGOs."
- "Write an email inviting partners to co-create an open catalog of digital resources."

Graphic Tools:

- "Generate a visual map showing the network of partner organizations across Europe."
- "Design a collage of photos and graphics illustrating international cooperation and innovation."
